CARRANZA SOON

Paving Way for Presentation of Demand for Recognition.

CLAIMS MANY SUCCESSES

Officials Here Believe United States May Have to Take Charge of Railway to Mexico City.

Gen. Carranza is paving the way as rapidly as possible for the formal pre-sentation of his demand for recognition to the United States. The Carranza agency gave out last night dispatches headquarters at Vera Cruz reciting Gen. Villa, however, through his agency

here, gave out a statement denying the successes of Carranza and claiming that his own forces are still formidable and are holding important parts of the re-Secretary of State Lansing said last

night that he had received no information from Mexico, so that the conditions requiring special notice by the President remain the same, unless it has been determined to recognize Carranza the mo-ment he gains control of Mexico City and establishes order there.

Hard to Hold Railway.

Nearly all officials, however, are of the opinion, based on the history of events for the last two years, that no faction can hold the railway between Mexico City and Vera Cruz while another faction is in arms in Mexico.

These officials are of the opinion that unless Carranza annihilates the Zapata and Villa forces it will be necessary oner or later for the United States to take charge of the railway and keep it open. It is universally known now that foreign nations have been pressing the United States to keep communication open between the Mexican capital and Vera Cruz. Navy people pointed out last night that the burden of this work, if it becomes necessary, would fall on Capt, Macnamee, with his very small force now off Vera Cruz.

The Carranza agency said last night it had been informed by Mr. Acuna, Carranza's minister for foreign affairs, at Vera Cruz, that Carranza will send 12,000 tons of flour, corn, beans, barley, lard, and dried meats into Mexico City. This the dispatches say will be in addition the supplies which Gen. Gonzales w the supplies which Gen, Gonzales will carry with him into the city of Mexico "at the present reoccupation." The Carranza agency also claims that Carranza has set up a civil government at Queretaro, and that a similar government soon will be estoblished at Aguas Calientes. It is claimed that these dispositions will reunite the armies of Obregon and Gonzales by telepraph and railway links.
